HYDRO EXCAVATOR TRAILER

Supervac is conscious of the constraints imposed by the amendments to regulation 413/05 to the Hydro Vac industry, and is addressing it by designing this new trailer that meets all regulations without compromising on load and power.

PAYLOAD IS KEY POINT!

This unique trailer is as small as a regular Vac Truck (31,5') but provides high payload capacity.

Exclusive design and equipment combined with accurate weight distribution, result in a piece of equipment that cannot be matched by competition.

ATLAS AN HYDRO VAC

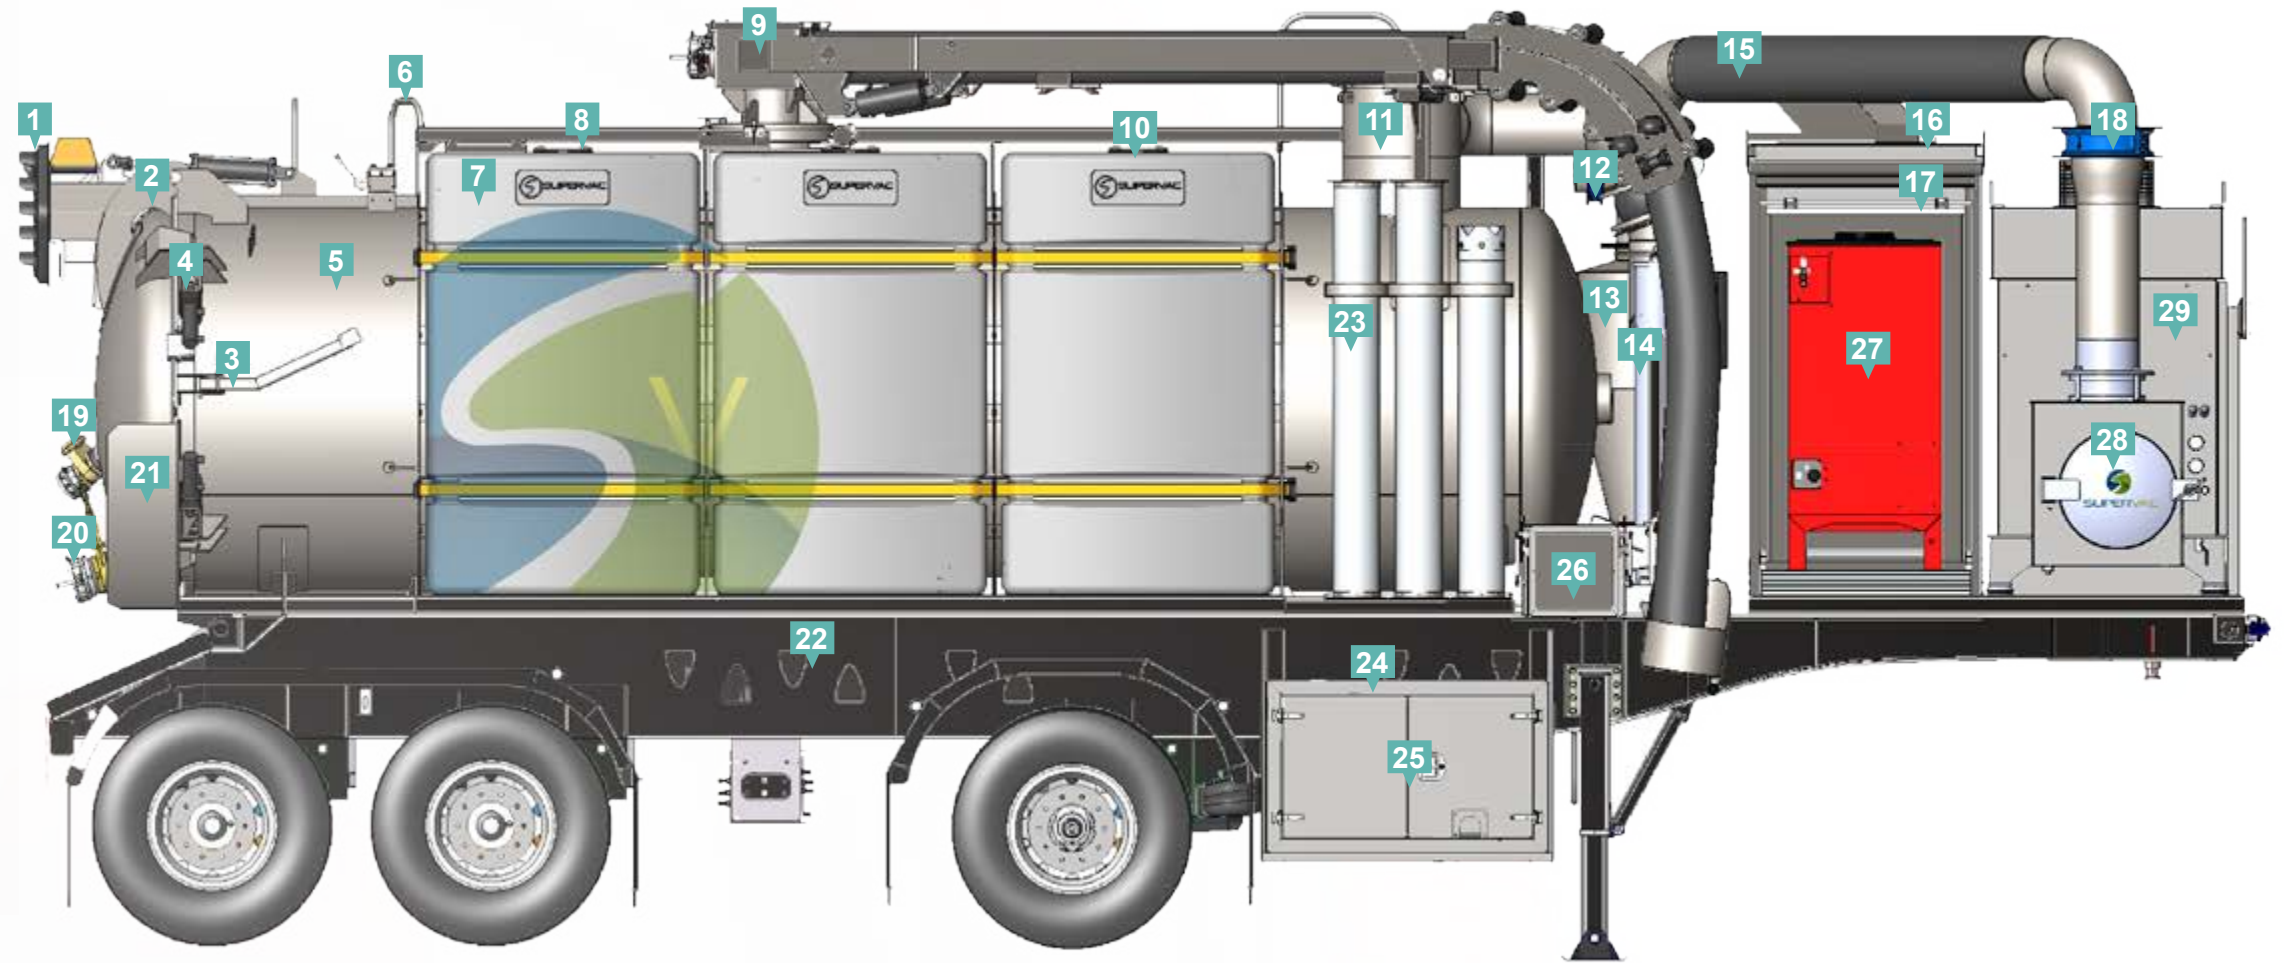

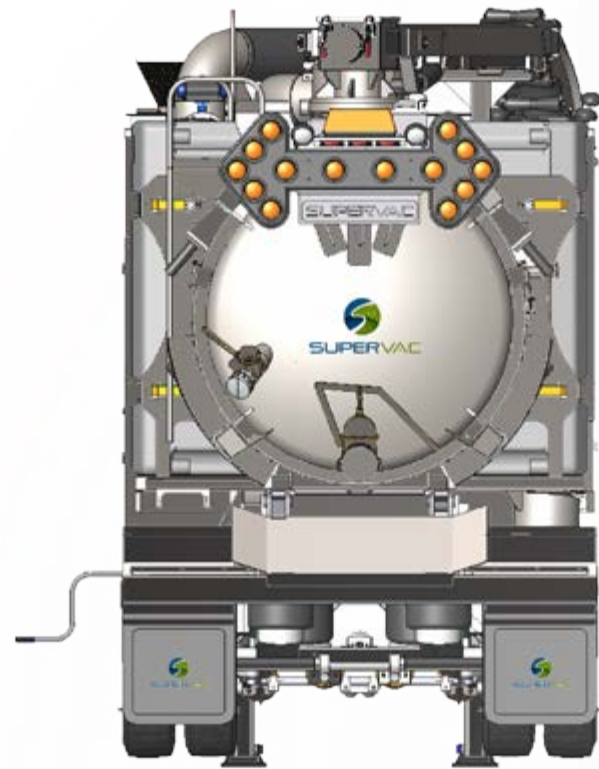

THAT CARRY THE LOAD!

PAYLOAD
49 400 lbs

- Total length: **31,5 feet**
Almost same length as regular hydro vac truck
- Payload of 49 400 lbs / 22 407 kg
- Volume capacity (water) of 5932 Gallons (US) / 29 yd³
- Excellent turning radius for narrow space
- Custom design available

SVHR-3800

- 1** Flashing arrow and LED working light;
- 2** Full opening rear door;
- 3** Protection arm and LED light;
- 4** Hydraulic door lock;
- 5** 3600 Gallons (US) (18 yd³), carbon steel debris tank and baffle;
- 6** Cat walk access ladder and handrail;
- 7** (6) Plastic water tank total capacity 1500 Gallons (US);
- 8** 8" Sample port and camlock;
- 9** Top loading boom 320° rotation, 21 feet extension 8" flexhose, top access door, protection elbow;
- 10** 20" Manhole;
- 11** Primary shut-off valve, 14" stainless steel floatball;
- 12** 6" Vacuum relief valve;
- 13** Carbon steel cyclone and dropbox;
- 14** 30 Tons hydraulic dump;
- 15** 10" Flex pipping;
- 16** Fully insulated enclosure (101" x 40" x 78") webasto diesel heater;
- 17** Roll-up door;
- 18** 12" Check valve;
- 19** 4" Decant valve, screen basket;
- 20** 6" Discharge valve;
- 21** Splash guard;
- 22** Deloupe heavy duty trailer option 1: triaxle option 2 tandem and lift axle;
- 23** Aluminum extension;
- 24** Fully insulated and heated water box;
- 25** Pratissoli water pump 20 GPM / 3000 PSI, Hose reel 100' 1/2 hose gun / lance, 12 V recirculation pump Flush line, Winter package (Air purge);
- 26** Multiplexing, 8" color display controller and weight scale;
- 27** Dynablast boiler 680 000 BTU, 12 V;
- 28** Final filtration cartridge;
- 29** Robuschi blower 3800 CFM, 27" HG Hydrostatic drive.
